

Boil Water Rescind Notice

On 03/10/2018, the Texas Commission on Environmental Quality (TCEQ) required our public water system Maxwell Water Supply Corporation, PWS ID 0280003 to issue a Boil Water Notice (BWN) to inform our customers that due to temporary low water pressure associated with a water main break, water from our system must be boiled prior to consumption. The water services affected were in the following area:

- **Maxwell East of 1966**
- **In and around Town of Maxwell**
- **East of HWY 142**
- **Any other nearby location that may have lost water pressure or had NO water during this water main repair on March 10, 2018**

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling as of 03/13/2018.

If you have questions, contact Justin Ivicic at 512-357-6253.

If a customer wishes to reach TCEQ, they may call 512-239-4691.
